NOVANDI RAMADHAN

Jl. Ki Uju, Kota Serang, Banten | (+62) 8515-6066-785 | novandiramadhan80@gmail.com | novandi18.github.io

An undergraduate student at Universitas Serang Raya, specializing in Web Development and Android Development. I have a good understanding about Web Development like React, Laravel, NodeJS and about Android Development like Kotlin and Jetpack Compose. I am looking for an opportunity to contribute to a dynamic and innovative team where I can apply my knowledge and technical expertise to create impressive software solutions and I take great care in the experience, design, and code quality of the things I build.

EDUCATION

Informatics | Universitas Serang Raya
2020 - Present

Software Engineering | SMK Informatika Kota Serang
2017 – 2020

EXPERIENCE

Mobile Development | Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka
February 2023 – July 2023

- Build a food recipe application.
- Build an application that can fetch data from Web API and store favorite data using room database.
- Build an Android application themed story app that can be used to share photos by implementing Paging 3.
